

RoPACS meeting at the IAC

Tuesday 17th – Wednesday 18th November 2009

Instituto de Astrofísica de Canarias, Tenerife

SOC: David Pinfield, Eduardo Martín

LOC: Victor Béjar, Florian Rodler, Eduardo Martín

Venue

The RoPACS network meeting takes place in the lecture hall (Aula) in the **Instituto de Astrofísica de Canarias (IAC)**, which is situated in the Calle Via Láctea, just next to the Science Museum (Museo de la Ciencia) with its big dish on the roof.

Walking from the hotel down to the IAC will take you 20-25 minutes. Alternatively, you can take the tram, which runs from the terminal stop "La Trinidad" to "Museo de la Ciencia" (3 stops). A single ticket costs 1.30 EUR, which you can only buy outside at the tram stop at the vendor machines. Use the ticket stamper inside the tram to validate the tickets.

Overview - Day 1: Tuesday 17th Nov

10:30 - 11:30: Morning session 1

11:30 - 12:00: Coffee break

12:00 - 13:00: Morning session 2

Lunch in the cafeteria of the IAC

14:30 - 15:30: Afternoon session 1

15:30 - 16:00: Coffee break

16:00 - 17:15: Afternoon session 2

19:30 Meeting point for the **RoPACS dinner** in front of the hotel on the square

Plaza Adelantado.

19:45 RoPacs dinner in the restaurant "Casa Maquila" in the old part of La Laguna.

Overview - Day 2: Wednesday 18th Nov

10:30 - 11:30: Morning session 1

11:40 - 12:05: Coffee break

12:05 - 13:10: Morning session 2

Lunch in the cafeteria of the IAC

14:30: Meeting point at the gate of the IAC for the **tour to the Teide Observatory**

14:45 - 19:45: Tour to the Teide Observatory. *Take some water with you!*

Day 1: Tuesday 17th Nov - Morning sessions 1 & 2

10:30 David Pinfield (UH): RoPACS news/info (15+5')

10:50 Simon Hodgkin (IoA): Update on the WTS: Observations & processing (10+5')

11:05 Jayne Birkby (IoA): WTS transits

Coffee break 11:30-12:00

12:00 Bas Nefs (Leiden): WTS analysis and follow-up by Leiden (15+5')

12:20 Brigitta Sipocz (UH): Introduction (10+2')

12:32 Gabor Kovacs (IoA): Introduction (10+2')

12:44 Niall Goulding (UH): WTS candidate transit star measurements (10+2')

Notes:

Day 1: Tuesday 17th Nov - Afternoon sessions 1 & 2

14:30 Felipe Murgas (IAC): Introduction (10+2')

14:42 Don Pollacco (QUB): Using the RISE instrument for transit follow-up (15+5')

15:02 Eduardo Martín (IAC): CARMENES & NAHUAL: Two NIR planet hunters - challenges, opportunities & synergies (15+5')

Coffee break 15:30 – 16:00

16:00 Marco Montalto (MPE): Follow-up analysis of a transiting planet candidate in the region of the old open cluster NGC 6253 (25+5')

16:30 Johannes Koppenhöffer (MPE): Spectroscopic follow-up of POTS-C1 & WTS lightcurve analysis (15+5')

16:50 Michele Cappetta (MPE): Introduction & radial velocity curves with HRS @ HET spectra (10+2')

17:02 Jesus Zendejas (MPE): Introduction (10+2')

Notes:

Day 2: Wednesday 18th Nov - Morning sessions 1 & 2

- 10:30 David Pinfield (UH):** Brown dwarfs & white dwarfs as wide faint companions - implications for exoplanet systems? (20+5')

10:55 Joana Gomes (UH): Introduction (10+2')

11:07 Hannu Parviainen (IAC): Introduction (10+2')

11:19 James Frith (UH): Introduction & Cosmic Vision (15+5')

Coffee break 11:40 – 12:05

- 12:05 Yakiv Pavlenko (MAO)**: Some results of modelling spectra of ultracool dwarfs:
First results to model fits to Palle's telluric spectrum (15+5')

12:25 Max Kuznetsov (MAO): Introduction (10+2')

12:37 Patricia Cruz (LAEX): Introduction (10+2')

12:49 Andres Moya (LAEX): Contributions of asteroseismology to the science of
RoPACS (15+5')
